## PROFESSIONAL SUMMARY

Full-Stack Web Developer specializing in building scalable, production-grade web applications using React, Next.js, Node.js, TypeScript, and PostgreSQL (Supabase). Experienced in end-to-end product development from UI/UX design in Figma to cloud deployment on Vercel with a strong focus on REST API design, real-time systems, and seamless user experience.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL  
**Frontend:** React.js, Next.js, Tailwind CSS, Responsive Design  
**Backend & API:** Node.js, Express.js, RESTful APIs, Webhooks, JWT Authentication  
**Database & Storage:** MongoDB, MySQL, PostgreSQL, Supabase, Cloudflare R2  
**Tools & DevOps:** Git, GitHub, Vercel, Postman, Figma (UI/UX Design)

## PROJECTS

- PLUG** | *Next.js, TypeScript, Tailwind CSS, Supabase, PostgreSQL, Real-Time APIs* 2025 – Present
- Founded and engineered an exclusive peer-to-peer e-commerce platform for student communities, delivering a fully responsive, mobile-first UI using Next.js, TypeScript, and Tailwind CSS.
  - Architected backend infrastructure on Supabase (PostgreSQL), implementing secure JWT-based user authentication, relational database management, and real-time push notifications.
  - Built advanced P2P communication features including a live chat system and anonymous voice calling, ensuring user privacy and trust during marketplace transactions.
  - Designed and implemented the complete product from Figma wireframes to production deployment on Vercel as sole founder and lead developer.
- Sarvaa** | *React.js, TypeScript, Tailwind CSS, Supabase, Cloudflare R2, RESTful APIs* 2025 – Present
- Spearheaded development of a full-stack e-commerce storefront and admin dashboard using React.js and Tailwind CSS; platform has driven **10,000+ visitors** since launch.
  - Engineered a custom dynamic pricing engine with percentage-based discounts, real-time stock synchronization via Supabase channels, and a WhatsApp-integrated checkout workflow.
  - Integrated Cloudflare R2 for scalable media delivery, optimizing product image and video hosting for high-performance load times across devices.
  - Built a comprehensive admin dashboard enabling real-time inventory management, order tracking, and sales analytics.

## EXPERIENCE

- Freelance Full-Stack Web Developer** 2025 – Present  
*Self-Employed Remote / Guwahati, India*
- Delivered end-to-end web applications for clients from UI/UX wireframing in Figma to production deployment on Vercel ensuring high performance, scalability, and maintainability.
  - Developed robust backend systems and RESTful APIs using Node.js, Express.js, and Supabase (PostgreSQL), enabling clients to manage digital storefronts and customer workflows independently.
  - Implemented secure authentication flows using JWT, integrated third-party webhooks, and built custom checkout pipelines tailored to each client's business model.

## EDUCATION

- Assam Down Town University** Guwahati, Assam  
*Bachelor of Computer Applications (BCA)* Expected 2026
- CGPA: 8.5+ / 10.0
  - Relevant Coursework: Web Development, Database Management Systems, Data Structures & Algorithms, Software Engineering, UI/UX Design

## CERTIFICATIONS

- IBM AI Developer Professional Certificate** – Coursera, 2025  
**Google Prompting Essentials** – Coursera, 2025
